

AISSAM BELHACHMI

SOFTWARE ENGINEERING STUDENT

Tangier, Morocco

Profile

I'm a software engineering student, passionate about new technology, web design and software development, open source supporter, runner, coffee drinker, avid reader of interesting things and enthusiastic about everything that ends with dot.js.

Education

- **École Nationale des Sciences Appliquées de Tanger (ENSAT), Morocco.**
2012 - Present
2 years in preparatory cycle, then 1st and currently 2nd year in software engineering.
- **Scientific Moroccan Baccalaureate, with Honors, specializing in Mathematics.**
2009 - 2012
Lycée de Référence

Experience

- **Yazaki – Software Developer Intern - Meknes, Morocco.**
July 2015 – September 2015
Created applications (web and desktop) with a Node.js backend to:
 - Manage VOIP infrastructure.
 - Identify abnormal phone usage activity for compliance purposes.
- **Web Developer Freelancer**
June 2015
Building websites with HTML/CSS, JavaScript and PHP.

Projects

- **Muchwords**
muchwords.aissam.me
github.com/Edmeral/muchwords
A web app to help people write every day - built with Node.js and Express.
- **Nodecup**
github.com/Edmeral/nodecup
Soccer world cup results in the command line in real time - built with Node.js.
- **Team Pro** (team work)
Cross-platform Project Management desktop application with instant chat, synchronized tasks record and instant file sharing - backend in Node.js, frontend in JAVA and using MongoDB, SocketIO and OkHttp.

Activities

- **Co-Organizer of Forum ENSAT Enterprises 2015.**
forum.ensat.ac.ma
- **Vice President of CSC**
Vice President of Computer Science Club of National School of Applied Sciences of Tangier.
- **Member of MoroccoJS**
moroccojs.org
A JavaScript and Node.js Moroccan community.
- **ACM-MCPC participant**
Participated in ACM-MCPC Moroccan Collegiate Programming Contest.

Details

26 Jul 1994
5 Comp. Al Irfane GH5 E5

Programming Languages

JavaScript JAVA PHP Python
C/C++ C#

Frameworks and Platforms

Node.js Express MongoDB MySQL
React Bootstrap JEE .NET MEAN

Keywords

Git GitHub Command line tools
OAuth JSON Bitcoin Blockchain
REST OS X Babel Trello Slack
IntelliJ NPM Code review HTML CSS
MVC API Sublime Text Linux Bash

Courses Completed

Web Development
Object Oriented Design & Design
Patterns
Algorithms
Java & Data Structures
Unix/Linux
Human Computer Interaction
Software Engineering Process
Relational & NoSQL Databases
Software Testing & TDD
RESTful APIs

Non-technical skills

- Hungry and humble, always thirsty for new learning experiences.
- Readiness to give all the effort necessary to do an excellent job - even if it means putting in extra time to research the problem I'm facing.
- Startup enthusiast.
- Perfectionism: knowing how it should be done and not stop until it's done right.
- Good team attitude and communication skills.
- Care about writing simple, structured and documented code.
- Excellent attention to detail and demonstrated design skills and UX sensibilities.
